

**Seminar Session Schedule**  
**Thursday afternoon**  
**14:30 – 18:00**

14:30 – 15:10

Çetin Ürtiş : Integral representations of L-functions

15:20 – 16:00

Ayberk Zeytin : Combinatorics of relative quadratic extensions

16:00 – 16:20

Break

16:20 – 16:40

Ezra Waxman : Angles of Gaussian primes

16:45 – 17:05

Marine Rougnant : Mildness property and quadratic extensions of  $\mathbb{Q}$

17:15 – 17:35

Moni Kumari : Simultaneous non vanishing and sign changes of Fourier coefficients of modular forms

17:40 – 18 :00

Enis Kaya : Iwasawa Theory for elliptic curves
